

Deidre Diamond

Leading Voice in Cybersecurity Workforce Risk Management

Deidre Diamond is the Founder and CEO of CyberSN, specializing in cybersecurity workforce risk management and strategic talent acquisition. She launched her career straight out of college, guided by two pioneering entrepreneurs who provided growth opportunities for twenty-one years across Motion Recruitment, Rapid7 (RPD), and Percussion Software. Deidre holds two degrees in Sociology and Criminal Justice. Her transition to cybersecurity was driven by a passion for the community and a vision to fix the broken job searching system. In 2014, she founded CyberSN to enhance job matching through the CyberSN Taxonomy and lead in cyber workforce risk management.

Under Deidre's leadership, CyberSN became a premier U.S. talent intelligence firm. Her commitment to diversity led to founding Secure Diversity in 2015 and co-founding the Day of Shecurity Conference in 2017, which draws over 1,000 women and underrepresented genders bi-annually. She is a Cyversity Board Member, a Top 25 Woman in Cybersecurity, and a sought-after speaker on workforce risk, diversity, and retention.

SPEAKING TOPICS

- Cyber workforce (talent acquisition, retention, development)
- Cyber leadership
- Cyber careers
- Emotional intelligence
- DEI

“

Deidre is always a provocative presenter. She makes her audience think, and I like that.
