

Gregory Richardson

Empowering Organizations to Thrive in the Digital Age with Strategic Leadership and AI-Powered Security Solutions

Gregory Richardson serves as the Global Vice President, Advisory CISO at a leading global cybersecurity firm, where he shapes enterprise security strategies for organizations navigating a complex threat landscape. His expertise is recognized through his service on various corporate boards, including a prior directorship at a major national utility company, providing strategic oversight on critical infrastructure protection and digital transformation initiatives.

A serial entrepreneur, Gregory has founded and scaled successful ventures in hospitality, technology, and consulting, demonstrating his ability to identify market opportunities and build sustainable businesses. He has been a pioneering advocate for AI-powered security solutions, championing intelligent defense systems that anticipate and neutralize threats.

Beyond technical expertise, Gregory excels at building high-performance teams. His leadership philosophy emphasizes innovation, adaptability, and strategic thinking. Gregory bridges the gap between faith, technology, and security, helping organizations maintain core values while embracing innovation
