

Rick Howard

I study cybersecurity strategies that buy down business risk.

Rick is the President of the Cybersecurity Canon Project, a volunteer nonprofit seeking to be the Infosec Community's first source for curated and timeless cybersecurity content. His prior jobs include N2K CSO and podcast host, Palo Alto Networks CSO, TASC CISO, iDefense GM, Counterpane Global SOC Director, and the U.S. Army's Computer Emergency Response Team Commander. He co-founded the Cyber Threat Alliance and holds a Master of Computer Science degree from the Naval Postgraduate School and an engineering degree from the US Military Academy. He has published one cybersecurity book and been the executive editor for two other.

SPEAKING TOPICS

- **Cybersecurity Risk Forecasting**
- **First Principles in Science and Business.**
- **The Absolute Cybersecurity First Principle**

“

Rick has a way of seeing the big picture while never losing sight of the tyranny of the urgent that plagues cybersecurity professionals.
